Security Intelligence Engineer - v2,
IBM Certified

Organizer, Farewell Party 2016, RPS School, Mahendergarh

INTERESTS

Gaming | Travelling | Exploring

PROFESSIONAL SUMMARY

Dedicated MERN-Stack developer with 10 months of experience in React.js. Proficient in building responsive user interfaces and integrating MongoDB, Express.js, and Node.js for full-stack solutions. Strong problem-solving skills and a passion for creating efficient and scalable applications.

WORK EXPERIENCE

Zipstack (July 2022 - May 2023)
 Graduate Trainee (Frontend Developer)

- Successfully completed the migration of the Material-UI (MUI) library to Ant Design, refactoring and adapting the codebase from scratch.
- Implemented comprehensive unit tests using the Jest framework for hooks, components, and methods as part of the migration process
- Resolved critical bugs and issues in the existing portal by conducting thorough debugging and applying effective solutions

PROJECTS

Chatter-Box | 🐙

Independently developed Chatter-Box, a MERN stack chat application with real-time messaging capabilities using web sockets. Focusing on user-friendly design and clean coding.

 Features:

- Sign In/ Sign Up page
- Used Web Socket (Server.io) for real-time messaging capabilities
- Can search for his friend and start chatting instantly
- Can create a group
- Admin can add/remove from group
- Can check the notifications for messages while user was inactive

Tech Stack: React JS | React Redux | Mongo DB | Express JS | Server.io | Material UI

Healthkart Clone | 🐙

Healthkart is an e-commerce site to buy products related to fitness and health

 Features:

- Authentication of the user.
- Product page with filtering and sorting options.
- Adding and removing of products from wishlist and cart.

Tech Stack: ReactJs | Redux | Express | Firebase | MongoDb

Responsibility:

- Used MongoDb server as database for products on homepage.
- Used Material UI carousel to show the lists of different product in different section.
- Used some hover effects to make the site more interactive.

A collaborative project built by a team of 3 developers, executed within a week.
